

HAVE YOU HAD A CONCUSSION IN THE PAST 12 MONTHS?

Individuals *with* and *without* Head Injury Needed for Sleep Research Study

PURPOSE OF STUDY: To observe your sleep habits and response to **40 hours of sleep loss.**

TITLE: "Utilizing Sleep Deprivation to Reveal Subtle Neurocognitive Deficits in Mild Traumatic Brain Injury Volunteers with and without Persistent Post-Concussive Symptoms"

REQUIRES:

- One 3-hour screening visit & 1-hour follow up.
- 2 weeks at home sleep monitoring (following your normal schedule)
- 4 continuous days (3 nights) in the WRAIR Sleep Research Center. Participants will sleep for one night, stay awake the next night, and sleep the third night.

**AGES:
18-39
Years**

Compensation will be provided.

Study Location:

WRAIR Sleep Research Suites
503 Robert Grant Avenue
Silver Spring, MD 20910
